## DETAILED ACTION

### *Drawings*

The proposed drawing correction filed on April 04, 2006 has been acknowledged and approved. The drawing correction sufficiently overcomes the drawing objections noted in the previous Office action.

### *Allowable Subject Matter*

Claims 4-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 4 is allowable because the art of record, considered alone or in combination, neither anticipates nor renders obvious an apparatus for binding wire comprising: a take-up unit for taking a loop in a wire obtained upon the stretching of the wire around a bale, the take-up unit comprising: a longitudinally extending wire take-up space comprises a pair of long sides formed by a pair of walls and a pair of short sides, the pair of walls being separated by a first determined distant adapted to accept a wire having a predetermined diameter but not sufficient to accept a double strand of the wire, *one of the pair of short sides comprises a wire guide space which is wider than the first predetermined distance and formed by grooves in at least one of the pair of walls*, in combination with the rest of the claimed limitations.

US 3,137,426 to Brenneisen discloses a binding apparatus having a take up unit (6), the take up unit having a pair of walls (7 and 8) and a pair of short sides (fig. 2), the pair of walls being separated by a predetermined distance adapted to accept a wire (fig. 3). Brenneisen does

not teach one of the pair of short sides comprises a guide space which is wider than the predetermined distance and grooves formed in at least one of the pair of walls.

The rest of the prior art of record disclose various binding apparatus having a take up unit, but none of them teach one of the pair of short sides comprises a guide space which is wider than the predetermined distance between the walls and grooves formed in at least one of the pair of walls. Therefore, it is concluded by the Examiner that claims 4-9 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
